OBJECTIVE

Motivated Computer Information Sciences student at Monroe University seeking an internship or entry-level IT position to apply programming, database, and problem-solving skills. Eager to gain hands-on experience, contribute to real-world projects, and grow within a technology-driven environment.

EDUCATION

Monroe University — Bronx, NY

Expected Graduation: December 2026

Bachelor of Science in Computer Information Sciences

- Currently in 7th semester

TECHNICAL SKILLS

Programming Languages: Python, Java, C++

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL

Tools & Platforms: Git, GitHub, Visual Studio Code

Operating Systems: Windows, Linux

PROJECTS

Student Management System

- Designed and developed a database-driven application to manage student records
- Implemented CRUD operations (Create, Read, Update, Delete) using structured data handling
- Improved data organization and retrieval efficiency through database integration
- Applied core concepts of data structures and database systems

Personal Portfolio Website (In Progress)

- Developing a responsive personal website to showcase technical projects and skills
- Utilizing HTML, CSS, and JavaScript to create user-friendly interfaces
- Focused on clean design, accessibility, and performance optimization

Command-Line Utility Programs

- Built small-scale applications in Python and C++ to automate basic tasks
- Strengthened problem-solving skills through algorithmic thinking
- Practiced debugging and code optimization techniques

RELEVANT COURSEWORK

Data Structures • Database Systems • Web Development • Computer Networks • Software Engineering • IT Project Management • Wireless Technology • CCNA (Routing & Switching)

PROFESSIONAL SKILLS

- Strong analytical and problem-solving abilities
- Effective verbal and written communication
- Team collaboration and adaptability
- Time management and organizational skills
- Fast learner with a proactive mindset

ADDITIONAL EXPERIENCE

Academic & Independent Learning Projects

- Completed multiple programming assignments involving real-world problem scenarios
- Practicing coding through platforms such as LeetCode and HackerRank
- Continuously learning new technologies and development tools

ACTIVITIES & INTERESTS

- Active Computer Information Sciences student focused on technical growth
- Exploring software development and IT career paths
- Interested in emerging technologies and system design
